

Minutes of the Technology and Finance Standing Committee (TFSC) Meeting held on 21st September, 2017 at 12.15 P.M. in the Conference Room of Consultancy Development Centre (CDC), Core 4B, 2nd Floor, India Habitat Centre, Lodhi Road, New Delhi – 110 003.

=====

The Meeting of the Technology and Finance Standing Committee (TFSC) was held on 21st September, 2017 at 12.15 P.M. in the Conference Room of Consultancy Development Centre (CDC), Core 4B, 2nd Floor, India Habitat Centre, Lodhi Road, New Delhi – 110 003 under the Chairmanship of Shri Ajay Mathur, Director General, The Energy and Resources Institute (TERI). The list of participants is attached at *Annexure-I*.

2. The Chairman welcomed the participants. He informed the members that the Meeting of the TFSC is taking place after a span of more than three years. Therefore, there are pending proposals of the companies, which would be taken up for consideration by the Committee. As much time has elapsed since the companies submitted their proposals. The companies may have gone ahead and procured their equipment's by paying custom duty. While some may have got equipment's released through bank guarantee or after paying duty under protest by getting a provisional assessment of Duty.

3. He briefed the Committee about fiscal incentive scheme operating under notification of the Department of Revenue, Ministry of Finance, on providing fiscal incentives for conversion from Ozone Depleting Substance (ODS) to non-ODS technology. The last amendment to the notification was made in 2012. Vide the notification Customs Duty exemptions is provided to non-ODS technologies.

The relevant extract of the notification is quoted below:

"Goods required for,-

- (a) the substitution of ozone depleting substances (ODS);
- (b) the setting up of new capacity with non-ODS technology.

Explanation.-"Goods", for the purpose of this entry means goods which are designed exclusively for non-ODS technology"

4. It was informed to the participants that project proposals for availing the fiscal incentive scheme are appraised by the TFSC and upon appraisal recommended to the Empowered Steering Committee (ESC) chaired by Secretary EF&CC for approval for exemptions of Custom duty. The Chairman briefed the Committee that the role of the Committee is to undertake the necessary due diligence in appraising the projects.
5. The Chairman mentioned that the applications for exemption of customs duty which had been received in the past and lying pending since November, 2013 with the Ozone Cell are to be examined by this Committee as the notification No . 12/ 2012- Customs dated 17th March, 2012 is in force. The recommendations of the Committee Chaired by Shri Manoj Kumar Singh, the then Joint Secretary, MoEF&CC wherein, it was recommended that the Fiscal Incentive Scheme needs to be continued for phase out of Ozone Depleting Substances (ODSs), however, a specific proviso needs to be added in the notification so as not to provide fiscal incentives for alternate technologies to Chlorofluorocarbons (CFCs) as the same has been phased out in the country in 2010. The recommendation of the Committee was accepted by the Empowered Steering Committee (ESC) for the implementation of the Montreal Protocol in the country in their meeting held on 19th December, 2016.
6. The Committee was briefed that a letter has been sent to Department of Revenue, Ministry of Finance for issuance of a revised notification based on the decision of 41st ESC dated 19th December, 2016. A copy of the letter along with suggested modifications in the notification were circulated to the members. The Member Secretary also informed the Committee that a letter has been sent to industry association of Automobile Air-Conditioners Manufacturers informing the decision of the ESC regarding the proposal of fiscal incentive to extension of projects moving to alternatives of Chlorofluorocarbons (CFCs).
7. The Chairman requested the technical experts to examine the cases in the light of technology so that to say whether the proposed equipment's for which the company has applied for customs duty exemptions are required for such a change over or not.
8. The Agenda was considered ad seriatim. The annotated agenda and agenda papers were earlier circulated to all the members.

9. Minutes of the TFSC meeting held on 25th November, 2013 were circulated to all the Members of the Committee. Since, no comments have been received, the Minutes were adopted.

10. The Committee then considered the following Agenda items:

a). Agenda Item No. 1 to 5 The applications of M/s Subros Ltd., Noida for duty exemption for import of equipment's covered in 5 separate proposals.

M/s Subros Ltd., Noida had earlier submitted the following 5 proposals earlier (between November, 2013 to September, 2016) for availing exemption of Customs Duty under the fiscal incentive scheme since November, 2013, which are pending for appraisal.

(i) Project Proposal 1

The details of 10 pieces of equipment covered are shown in the table 1 below:

Total cost in Rs.					17,70,35,775/-
Duty payable @ 7.5%					1,32,77,683/-

The cost of these imported equipment is approx. Rs. 17 crores and basic import duty on it @ 7.5% would be approx. Rs. 1.32 crore.

The company representative explained that the equipment's covered in the proposals were not only for increasing the capacity of the plant but also for improving the technology for better products. They need for expansion and upgradation of the Noida plant/ Manesar plant with these equipment's for catering to the increased demand from the car manufacturer M/s Maruti Suzuki Ltd. A copy of the Presentation made by M/s Subros Ltd. are at Annexure II.

The representative of M/s Subros Ltd., mentioned that as long time had elapsed since the time they had applied under the fiscal incentive schemes, M/s Subros Ltd., had procured all the equipment's after payment of Duty, except for 9 equipment's, which were released against Bank Guarantee based on a letter issued by the Ozone Cell, MoEF&CC wherein it was stated that said cases are under consideration. The Company in the present meeting is seeking Custom duty exemption for these 9 pieces of equipment's which were released against Bank Guarantee the details of which were presented and are given in Table 6 below.

9.	160 SN2 STAMPING PRESS	7200000576	1,01,17,000	7,58,775

M/s Subros Ltd. also provided the copies of the letter issued by the Ozone Cell, MoEF&CC for release of equipment under Bank Guarantee. Copies of the letters issued by Ozone Cell, Purchase Order, Bill of Entry mentioning Bank Guarantee amount are at *Annexure III*.

The Committee observed that the equipment being imported are general purpose manufacturing machinery for mobile air-conditioners and the equipment is needed for further expansion.

The Committee recommended the application for exemption of basic Custom duty to the equipment's listed in Table 6 above, subject to M/s Subros Ltd., submitting the following:

- a) An undertaking that the equipment would be specifically used only for the purpose as set out in the application proposal,
- b) An undertaking that the equipment being imported are not manufactured in India,
- c) An undertaking that, in case, the company envisages to sell the equipment the same needs to brought to the notice of Custom Authorities.

b) Agenda Item No. 6

The application of **M/s Bharat Seats Ltd.**, Gurgaon (Haryana), for duty exemption for import of one Polyurethane car seat cushion moulding line from Japan.

The details of equipment submitted by M/s Bharat Seats Ltd., Gurgaon is provided in table 7 below.

Table 7

S. No	description of equip.	P.O. No and date	Qty	Price in Yen	Price in INR
i	Conveyor system	6700000011 Dated 25 th Jan 2014	One set	1,19,01,000/-	73,78,620/-
ii	Pouring machine		One set	1,22,51,000/-	75,95,620/-
iii	New system for Iso B2		One set	1,95,37,000/-	1,21,12,940/-
iv	Electrical Parts		One set	1,30,89,000/-	81,15,180/-
Total cost in Rs				3,52,02,360/-	

Duty payable @ 7.5% is Rs.				26,40,177/-
v	Seaworthy packing and FOB charges		One set	3,22,20,020/-
				19,97,640/-

The fifth item in the list e.g., **sea worthy packing and FOB charges** is not eligible for duty exemption as these are not capital goods.

The total of four items in the table is therefore Rs. 3.52 crores and basic duty on it @ 7.5% would be Rs 26.40 lakhs approximately.

In their presentation before the Committee the company representative explained the various features of the machine mentioned in the table. He mentioned that the machine is suitable for automated foaming controls and has higher number of moulds to improve productivity. It was informed that M/s Bharat Seats Ltd., use water as a blowing agent in the presence of various additives and catalyst to produce micro porous foam in the seating systems. A copy of the Presentation made by M/s Bharat Seats Ltd are at Annexure IV.

M/s Bharat Seats Ltd., Gurgaon informed the Committee that the equipment's mentioned above have already been imported as a lot of time has passed since they had submitted the proposal. However, the equipment's have been released from Customs after payment of a "duty under Protest" and Provisional Assessment of Duty. Copies of the relevant documents are at Annexure V.

The Committee recommended the application for duty exemption of basic Custom duty to the equipment's listed in Table 7 above, subject to M/s Bharat Seats Ltd., Gurgaon submits the following:

- a) Submission of flow sheet, diagrams and photographs with the details of equipment's to be used as per the Table 7 above, especially "New System for Iso B2".
- b) An undertaking that the equipment would be specifically used only for the purpose as set out in the application proposal,

- c) An undertaking that the equipment being imported are not manufactured in India,
- d) An undertaking that, in case, the company envisages to sell the equipment the same needs to brought to the notice of Custom Authorities,
- e) Submission of details of electrical equipment, and that the software is proprietary for use of the electrical equipment imported.

c) Agenda Item No. 7:

The Application of M/s **Global Autotech Ltd.**, Greater Noida for duty exemption for import of Teflon Coating line, Centreless Grinder machine and Spindle CNC chucker line needed for capacity expansion of Pistons Fine.

The list of equipment of M/s Global Autotech Ltd., Greater Noida is provided in Table 8 below:

Table 8

S. No	Name of the Equipment	Qty	PO/LOI No. & Date	FOB /CIF Value	Total FOB Cost INR
1	Teflon Coating Line	2 Line	GAL/PSS/IMP/1500 18.4.16	\$ 10,00,000/-	6,75,00,000/-
2	Centerless Grinder Machine	1 Nos	GAL/PSS/IMP/1499 9.4.16	\$ 1,19,000/-	80,32,500/-
3	Spindle CNC chucker Line	1 Line	GAL/PSS/IMP/1497 9.4.16	JPY 5,05,00,000/-	3,28,25,000/-
Total					10,83,57,500/-

Total cost INR 10.83 crores

Approx. Duty payable @ 7.5% 81.26 Lacs (81,26,812/-)

The total cost of the project submitted by M/s Global Autotech Ltd. Is Rs. 10.83 crores (approximately) and duty payable at 7.5% is Rs. 81.26 lakhs (approximately)

M/s Global Autotech Ltd., informed the Committee that they have already imported the three machines in 2016 (to increase the capacity from 60k pm to 90k pm) after payment of duty. Hence their application for duty exemption is no longer required. However they request the Committee to consider their applications for continuing with the Duty Exemption Scheme to achieve the objective of Non Ozone depleting environment.

d) Agenda Item No 8:

The application of M/s Zeco Aircon Ltd., for duty exemption for import of an Aluminium Paper Embossing Line and an Embossing Machine from China for Embossing of Aluminium foils to be used in PU Air Duct Panels.

The Committee was informed that M/s Zeco Aircon Ltd has withdrawn their application vide email dated 21st September, 2017 as the machines have already been imported after payment of all due customs & excise duties. A copy of the email is at *Annexure-VI*.

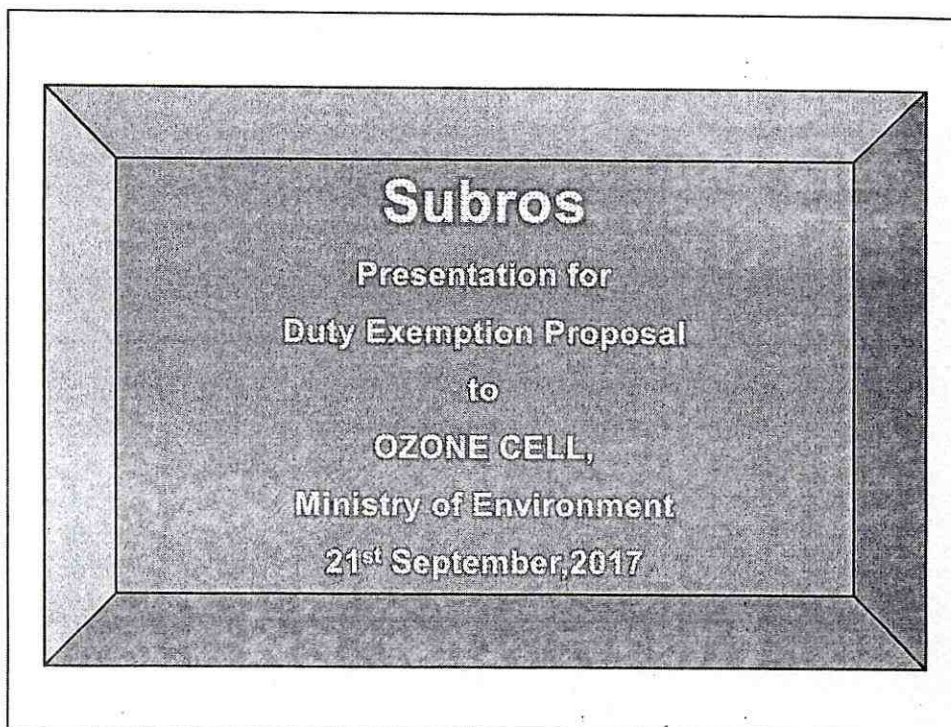

The meeting ended with vote of thanks to Chair and members.

Alternative Refrigerant for MAC Applications

Subros Limited: MAC Refrigerants & Impact on Environment

Subros Limited, founded in 1985, is a technology driven company and the leading manufacturer of thermal products for Mobile air conditioning applications in India.

Subros technical centre, which is located at Noida, India is having vast experience, rich knowledge, integrated facilities and technical experts to develop latest technology based product for Mobile air conditioning.

Subros technical centre is continuously working to enhance the **thermal comfort** of the mobility community in India by creating environment friendly **solutions suitable for our climate and economy.**

Alternative Refrigerant for MAC Applications

Subros always takes the lead to mitigate the refrigerant impact on environment

- In 1985 Subros launched air conditioning systems with Refrigerant R12
- In Year 2002, Subros developed air conditioning systems with Refrigerant R134a to meet domestic as well as export market
- In Year 2014, Subros developed air conditioning systems compatible with Refrigerant HFO1234yf, to meet requirement of export market

Alternative Refrigerant for MAC Applications

Subros is also taking initiatives for better refrigerant management via their efficient service network located at multiple locations in India, and adopting advanced technologies to reduce charge size and emissions, reducing leaks and increasing recovery and reuse of HFCs.

Subros is also evaluating technologies such as secondary loop designs and next generation compact heat exchangers to minimize the refrigerant emission impact on environment

EXPANSION PLAN

Need for New Equipment at Existing Facilities

Meeting the Customer Increased Volume Demands/ Expectations:

1. For Increase in Volumes:

➤ To increase the capacity of HVAC systems / Heat Exchangers in line with the revised model mix/increase of demand from customers.

2. For Line Capacity Balancing/New Models/In house capability:

➤ To balance the capacity at 1.50 Million sets/ developing inhouse capability for the Heat Exchanger child parts with liquid flux coating.

Need for New Equipment at Existing Facilities

3. To enhance In house Testing Capabilities:

➤ In line with the increased capacity requirements we need to enhance on line/ off line inspection capability also and the equipment like Electrical test Bench, Contour measurement, Helium leak detecting system are required for the same.

OUR REQUEST

WE WERE ISSUED THE LETTERS FROM THE OZONE CELL IN RELATION TO THE APPLICATIONS UNDER CONSIDERATION IN CASE OF 9 EQUIPMENT.

BASED ON THE SAME WE WERE ALLOWED TO CLEAR THE GOODS ON ZERO DUTY BY THE RESEPECTIVE CUSTOM AUTHORITIES AGAINST SUBMISSION OF BANK GUARANTEE.

NOW WE NEED TO SUBMIT THE ORIGINAL CERTIFICATES FOR DUTY EXEMPTION AGAINST SUCH CASES TO GET THE GUARANTEE CLOSED.

BASED ON OUR URGENT NEED AND UNAVAILABILITY OF THE LETERS/CERTIFICATES FROM THE OZONE CELL WE CLEARED OTHER EQUIPMENT AGAINST PAYMENT OF DUTY.

WE UNDERSTAND THAT THERE IS NO PROVISION FOR THE REIMBURSEMENT OF DUTY PAID.

WE THEREFORE REQUEST:

1. ISSUANCE OF FORMAL CERTIFICATES FOR EQUIPMENT CLEARED AGAINST LETTERS ISSUED TO US BY OZONE CELL.
2. TO CONTINUE CONSIDERING OUR APPLICATIONS FOR DUTY EXPEMTION FOR NEW INVESTMENTS KEEPING IN VIEW THE IMPLEMENTATION OF THE NEW GENERATION REFRIGERANT.

Thanks

BHARAT SEATS LTD

Technologies for Blowing

- CFC-11
- HCFC-141b
- **Water Blowing**
- Hydrocarbons (HC)

4

BHARAT SEATS LTD

Bharat Seats Ltd

History for CFC Free material

- We started with CFC-11 technology earlier. We gave up the CFC-11 technology as recommended by the Montreal Protocol
- We were the **Pioneers in India** to have given up CFC-11 technology
- BSL had the option to use the HCFC or water technology, but UNDP suggested to use water technology
- Although water technology was the most cumbersome to change to – we decided to modify the entire machinery to water based technology.

5

BHARAT SEATS LTD

CFC / HCFC Blend Process

- **Advantages**
 - Cheaper Equipment
 - Smaller Line – Less Space
 - Faster output
 - Better Quality
 - Lower density
 - Better dimensional Stability
 - Excellent Appearance
 - Good Thermal Insulation
- **Disadvantages**
 - The CFC / HCFC is Ozone depleting

6

BHARAT SEATS LTD

Water based Process

- Advantages
 - The material has no ozone depleting substance(ODS)
- Disadvantages
 - More Space and longer time occupied by curing stations
 - Expensive Equipment (Stainless Steel)
 - Lower output
 - High density – high cost
 - Poor dimensional stability – more variation

7

BHARAT SEATS LTD

How we have over come the disadvantages of water based process

- Change in chemistry of polyol
 - Graft polyol & cross linker introduced for better dimensional stability
 - Surfactant introduced for better surface finish
 - Catalyst introduced for increase rate of reaction for improve output by reducing cycle time
- Temp controlled of raw material for avoid scorching
- Crushing machine installed for degassing to reduce curing time and improve dimensional stability

8

BHARAT SEATS LTD Justification for Imported Machine

To Implement of water blown technology more efficiently –

Temperature control, Machine output and Combination of Material (Polyol and Isocyanate) Ratio is very critical Parameter.

For This, we need very precise and controlled parameter machine with safety feature and alarming system.

And BSL explored various option from various supplier, The current Machine (BSL Gurgaon) Producing Car Seat cushion Polyurethane Pad is manufactured by Polymer Engineering Company Limited, Japan and its sales distribution is through Inoac International Co. Japan

M/s Inoac, Japan is a very old and experienced Co. in water blown PU Machine supplier, manufactured by Polymer Engineering Co. (PEC), Japan. They have supplied many water blown technology PU Machine in other countries including several installation in Japan.

Beside Having Better price, BSL can standardize the spare requirement and use known technology by purchasing the machine from Inoac Company Limited, Japan.

Hence, we select Inoac International Co. Japan to supply Water blown technology PU Machine (Wet Part-Pouring Machine, Conveyor, Iso System, Electrical Part to precise control, robotic programing) Manufactured by Polymer Engineering Co. Japan.

In Addition, we introduce Indian Supplier, M/S Goodie to supply dry parts (Trolley Assembly, Mold closing station, rotary cleaner, camera observation system for pouring and mixing observation, Mix-head for material mixing, Accessories of mix head, Material Tank 500 L capacity, accessories for storage tank, Material supply group, control group wiring, Piping and storage station)

M/s Inoac, Japan integrate the material and machine parts supply by Ms Goodie enterprises India.

9

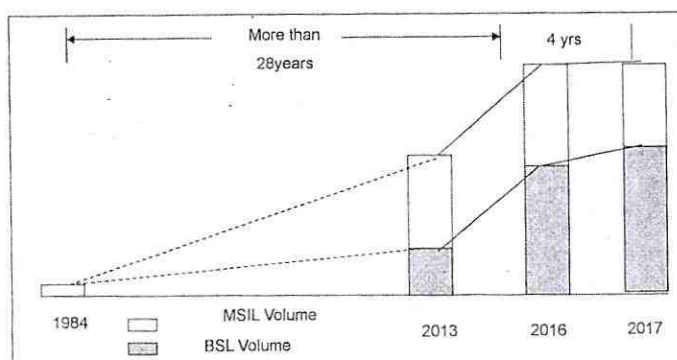

BHARAT SEATS LTD

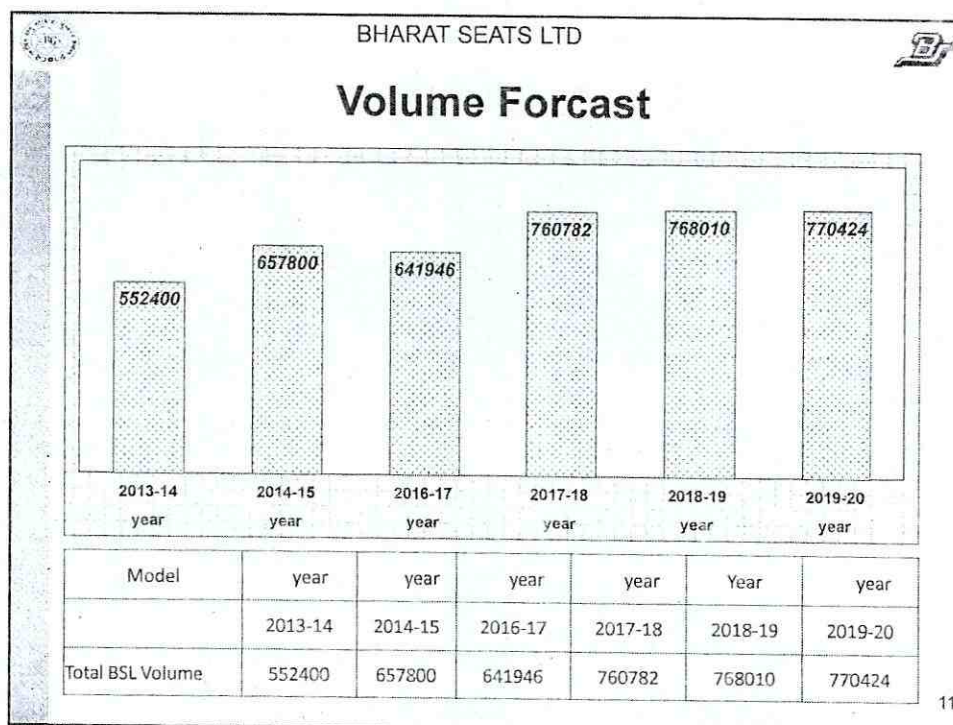

WHY EXPANSION

Volume Forecasts

- Maruti Suzuki India Ltd reached 1.2 million mile stone in 2013
- And in Current ,it is about 1.5 Million
- Just in time(JIT) delivery

10

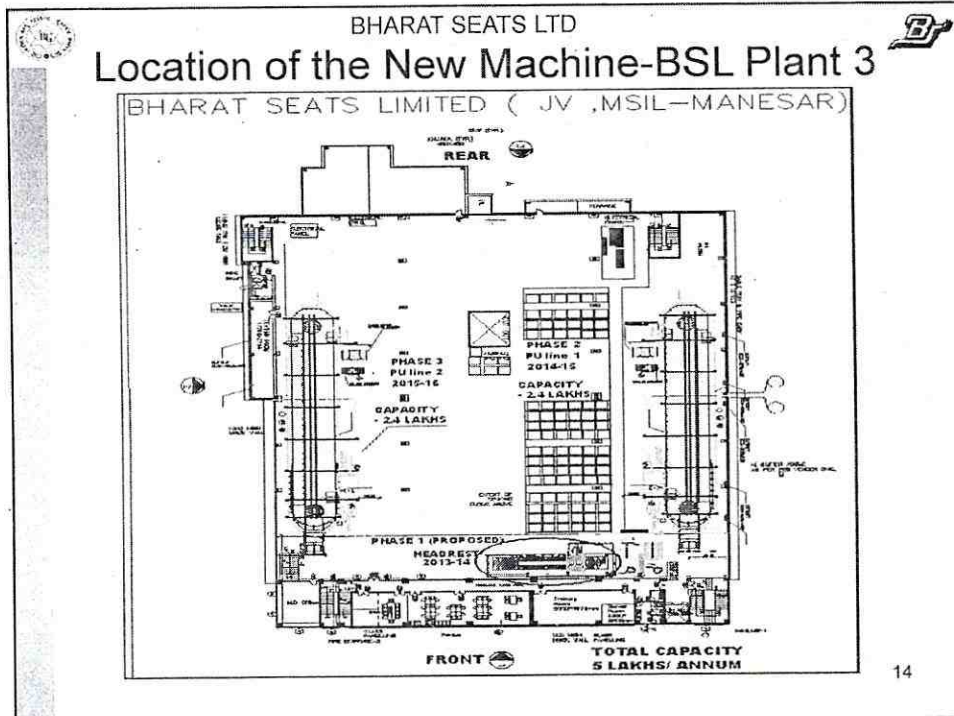

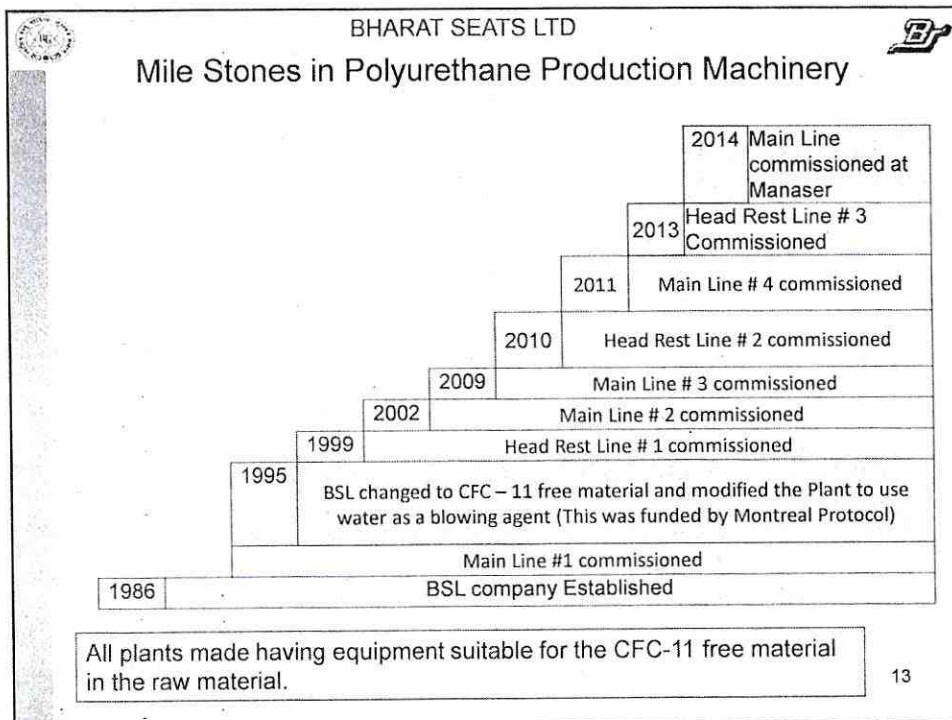

BHARAT SEATS LTD

Capacities

Main Lines		Head Rest Lines	
Lines	Sets / year	Lines	Sets / Year
4 nos	7,00,000	3 nos	8,16,000
After installation of Imported Line at Manaser	8,42,240		

Hence we have installed Main Line at BSL Manaser due to this Capacity enhance to 8,42,240 sets/year

12

BHARAT SEATS LTD

Conclusion

- Bharat Seats Ltd needs to install a new Polyurethane Line to cater to the growing need of the customer
- The technology recommended by the Montreal Protocol is a non CFC-11 based technology.

The Commissioner of Customs *Cor. V*
ICD Tuglakabad
New Delhi

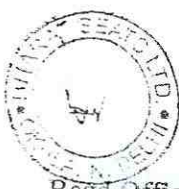

Sir,

Subject :- Customs -Import of Polyurethane Cushion Molding Machinery of NON-ODS Foam blowing Technology fully exempt under Notification No. 12/2012-Customs dated 17th March, 2012- payment of duty "Under Protest"-Vide B/L No. 534041133001

1. Respectfully we state that our Company is engaged in manufacturing of Automobile Seats & Carpets for various Models of Motor Vehicles for Maruti Suzuki India Limited.
2. To meet the requirement of customer in the coming Years, the Company has undertaken expansion and for this need we have placed Purchase Order 67000000011 dated 25th January, 2014 on M/s Inoac International Co. Ltd, MEIKI MINAMI 2-CHOME, NAKAMURAKU, NAGOYA JAPAN (copy enclosed) which gives in itself the Description of Machinery, its quantity & value unit wise amounting to the total value of six crores JPY.
3. The above said Machinery imported vide B/L No. 534041133001 dated 01.05.2014 having invoice No. I14026191GA03EM dated 24.04.14 has already reached at ICD, Tuglakabad
4. It is further humbly submitted that the machinery in question is of Non ODS Technology base and is fully exempted from Customs Duty under Notification No. 12/2012-Customs dated 17th March, 2012 (Sr. No. 364 of the table appended thereto) of course, with condition specified at Sr. No. 47 which is reproduced below:-

If (a) the project of substitution of ozone depleting substances (ODS) or the project for setting up of New Capacity with NON-ODS Technology has been approved by the Steering Committee set up in the Ministry of Environment & Forests for the clearance of such projects and

(b) the importer furnishes in each case a list of the goods required for the aforesaid projects, which is duly certified, to the effect that the goods mentioned in the said list are required for the aforesaid project by an officer not below the Rank of Deputy Secretary in the Ministry of Environment & Forests.

As appear from the above, the exemption from Customs Duty on the machinery being imported by us is subject to the production of Certificate, as mentioned above from the Ministry of Environment & Forests for Customs clearance.

It is further submitted that we have filed an application to the Director, Ministry of Environment & Forests (Ozone Cell) New Delhi on 01.05.2014 (copy enclosed) for the grant of required certificate to meet with the condition of Exemption Notification for full exemption of Customs Duty at the time of clearance of imported machinery from the Custom's Charge, but the same is pending with the Ministry and the required Certificate is not likely to be issued by the Authorities in the Ministry of Environment & Forests by the time we clear the imported machinery from the Customs, but the same may be issued subsequent to the clearance of imported machinery.

Under the circumstances stated above and to ensure the completion of erectioning & commissioning of the machinery in question to become operational by the scheduled target, we want to clear the machinery on payment of duty "Under Protest" in terms of the provision of Section 3(d) of the Customs Act, 1962 for the time being and to claim refund of the same on receipt of the required Certificate from the concerned Ministry in accordance with the law & procedure laid down for the purpose.

In view of the facts & circumstances stated above, it is requested that we may be allowed to clear the imported machinery on payment of Customs Duty "Under Protest" with an endorsement on the Bill of Entry accordingly.

Thanking you,

Yours faithfully

Dear Sir,

We are in receipt of your Meeting Notice (Technology and Finance Standing Committee) dated 06.09.2017 for meeting to be held on 13.09.2017.

In this regard, we would like to submit the following:

1. Our PO no. ZAL/IMPORT/54 dated 26.02.2014 was raised for purchase of Aluminium Paper Embossing Line & Embossing Machine
2. The same was required for the continuous line at our Lahe Plant in Maharashtra.
3. As there was urgent need, the machines in question have been imported vide Commercial Invoice no. LK2014/001 dated 27.06.2014 of M/s Changzhou Longkai Metal Embossing Machinery Co. Ltd, China: Bill of Lading no. SHASEA32159 dated 03.07.2017 & Bill of Entry no. 6191844/21/07/2014/N/H after due payment of customs & excise duty without availing any exemption or benefit.

As the machines have already been imported after payment of all due customs & excise duties, we request your good self to kindly treat our proposal submitted earlier, as withdrawn.

Hope your good self find same in order.

Thanks & Regards

Sushil K Agarwal
